

City of Eugene Road Work Report

Information is current for the week of September 24–September 30, 2006

Airport Road Realignment: The new alignment of Airport Road is open. Expect construction equipment working along the new roads as finishing work is conducted. There may be minor delays on Green Hill Road east (where the old meets the new) as that intersection is modified.

Clark Street at Cedar Street: Watch for construction traffic and expect minor delays. Wastewater repairs and maintenance on the north side of the street will close the north sidewalk.

Donald Street From East 40th Avenue to East 46th Avenue: Watch for lane closures and shifts.

East 18th Avenue from Hilyard Street to Harris Street: E. 18th Avenue between Hilyard Street and Alder Street will be closed to all traffic from 7:00 A.M. until 5:00 P.M on Monday September 18 2006. Consider E.19th Avenue as an alternate route. There will be no parking available between Harris and Hilyard on intermittent days. Bike traffic will be required to merge periodically with motor vehicles. Watch for trucks and other construction traffic during wastewater repairs and maintenance.

East 40th Avenue from Donald Street to Willamette Street: Watch for lane closures and shifts.

East 43rd Avenue from Fox Hollow Road to Donald Street: Watch for lane closures and shifts.

Franklin Boulevard from Walnut Street to E. 11th Avenue: Watch for lane closures and shifts.

Ferry Street and ORE 99W: The new sections of Ferry Street, north of 8th Avenue and the new section of ORE 99W, west of Ferry Street will remain closed until September 29th for completing landscaping and street illumination.

Fern Ridge Path: City View Street to Garfield Street and Chambers Street to Blue Heron Bike Bridge: Path closures may continue during final construction clean up activities. Work will continue on the pedestrian islands and sidewalk ramps at the Fern Ridge Path intersection with City View. This island and ramp work may cause minor delays to traffic and sidewalk closures for pedestrians. The project is scheduled to be complete September 30th. The recommended alternate route between Polk and City View streets is 12th Avenue. The section of path between Garfield and Chambers will remain open throughout the project. Eastbound path users will be required to use alternate routes at Chambers Street. Westbound path users will be required to use alternate routes at Polk Street; however, the Blue Heron Bridge, which crosses Amazon Creek in Westmoreland Park to 18th Avenue, will remain open throughout the project and can be used as an alternate route to 18th Avenue or other routes to the south.

Jackson Street from Clark to Cheshire: Watch for construction traffic and expect minor delays during wastewater repairs and maintenance.

West 1st Avenue from Jackson Street to Adams Street: Watch for construction traffic, lane closures and shifts. Expect minor delays during wastewater repairs and maintenance.
